NRO&USAF Declassification&Release Instructions on File

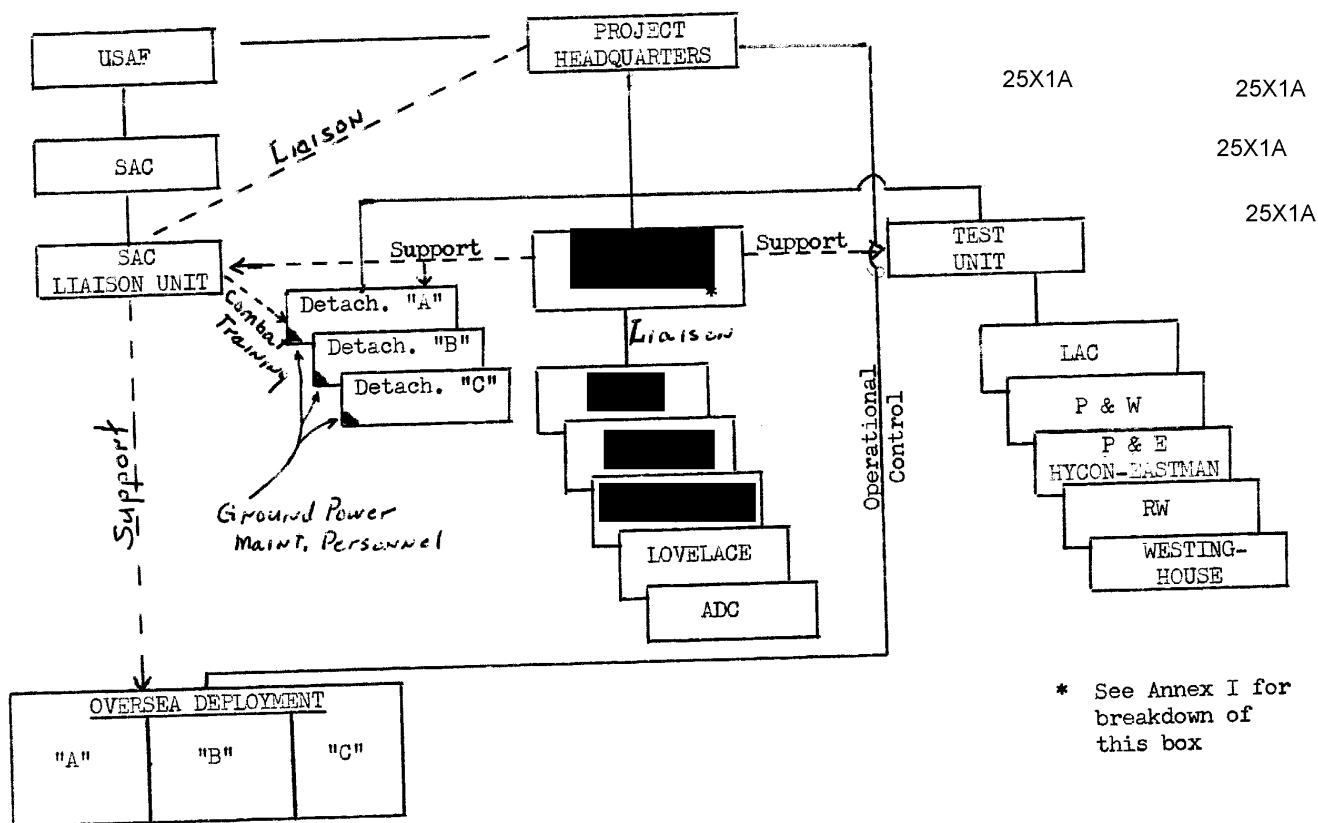

REPORT #3

ORGANIZATIONAL CHARTS

These charts were drawn up, not in anyway to change existing organizational allignments, but rather to clarify the picture in our minds. We have endeavored to bring into focus the various command lines and areas of responsibility while at the same time, depicting the units in somewhat of a standard Air Force functional chart manner.

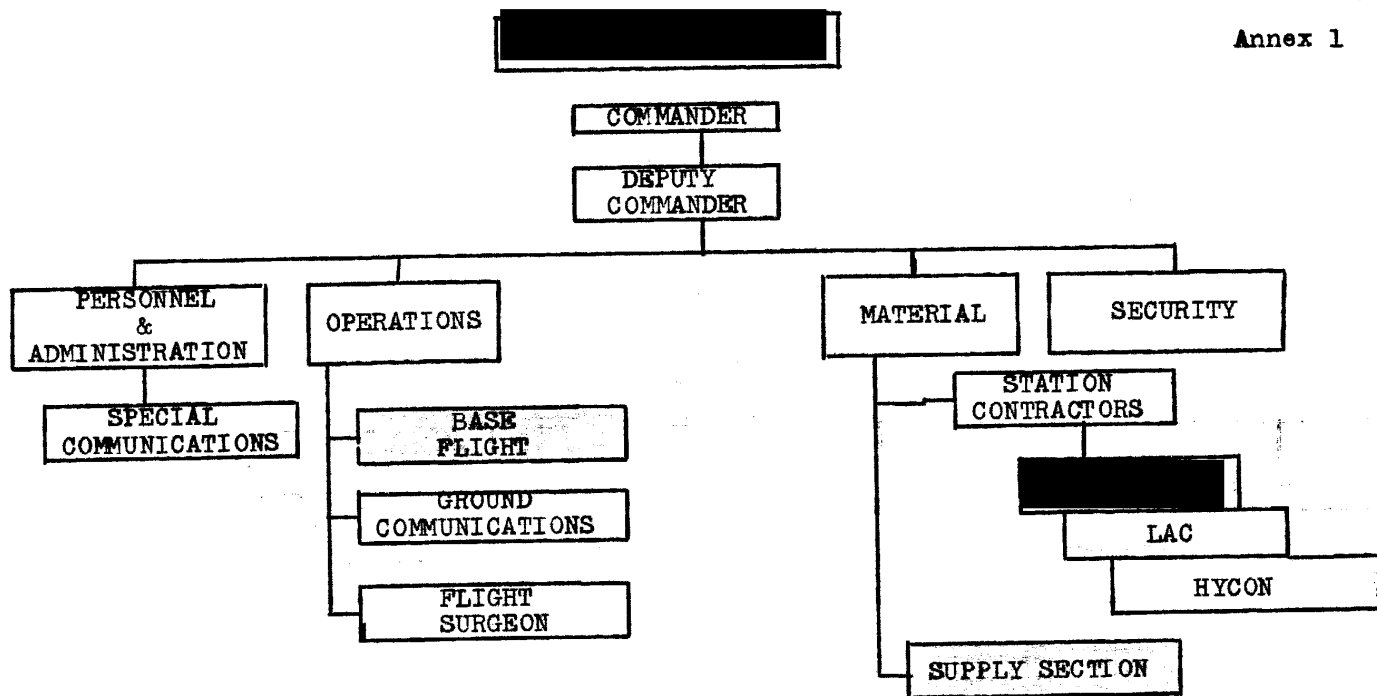

Noted in red are those sections which we feel are required but not in existance today.
